I. Evstigneev, V. B.
II. Savkina, I. G.

Trans. of Biofizika (USSR) 1963, v. 8 [no. 2]
p. 181-190.

DESCRIPTORS: *Photosynthesis, *Chlorophylls,
*Phthalocyanines, Oxidation-reduction reactions.

With the use of intermittent illumination and the
oscillographic technique we studied in detail the poten-
tial changes with illumination of a platinum electrode
bearing a film of phthalocyanine or chlorophyll and
immersed in an electrolyte solution. It was established
that the curves for potential change, reflecting photo-
electrochemical processes at the film surface, appear
to be the sum of no less than three components. A
